

APSR 2021 On-deman Program Release Schedule

	<div>Nov. 20 (SAT) (8:30 a.m. JST/UTC+9)</div> <div>Expert View</div> <div><div>1. Japanese guideline for diagnosis and treatment of COVID-19</div><div>2. Overview of COVID-19</div><div>3. Incorporation of Molecular Diagnostics for Severe Pneumonia</div><div>4. Building a Walkable City and Infrastructure</div><div>5. Host-Microbiome Interactions in the Pathogenesis of IPF</div><div>6. Advances in perioperative therapy: the new frontier</div><div>7. A Role of the Pathologist in Personalized Medicine for Lung Cancer Patient</div><div>8. A New Paradigm for the Management of Mild Asthma</div><div>9. Recent Advances in Severe asthma</div><div>10. Approaches to lung endothelial cell repair in emphysema</div><div>11. Survival Skills for an Academic Career.</div><div>12. Career Development and Gender Equality to Achieve Sustainable Development</div><div>13. Racial and ethnic disparities in respiratory health</div><div>14. NHS pledges to go net zero carbon</div><div>15. The public health implications of the Paris Agreement: a model study</div><div>16. COVID-19 and its impact on the SDGs</div><div>17. Deforestation and Zoonitic Disease</div></div>	<div>APSR 2021 Hybrid Congress is Live broadcasting for 2 days only on November 20 and 21, 2021.</div> <div>After that, until December 28, you can watch all the content below whenever and wherever you like.</div>			<div>Nov. 20 (SAT) (8:30 a.m. JST/UTC+9)</div> <div>Poster Session</div> <div><div>Clinical Respiratory Medicine</div><div>Cell and Molecular Biology</div><div>Clinical Allergy and Immunology</div><div>Environmental and Occupational Health and Epidemiology</div><div>Respiratory Infections (non-tuberculous)</div><div>Tuberculosis</div><div>COPD</div><div>Lung Cancer</div><div>Asthma</div><div>Respiratory Neurobiology and Sleep</div><div>Critical Care Medicine</div><div>Bronchoscopy and Interventional Techniques</div><div>Paediatric Lung Disease</div><div>Respiratory Structure and Function</div><div>Pulmonary Circulation</div><div>Interstitial Lung Disease</div></div>
<div>Nov. 22 (MON) (12:00 noon JST/UTC+9)</div> <div>Keynote Lecture</div> <div>The importance of the innate immune response in resilience against COVID-19</div> <div>Chair: Shu Hashimoto</div> <div>Speaker: Sir Stephen T. Holgate</div> <div>Presidential Lecture</div> <div>Our future; the path we're on</div> <div>Chairs: Akihito Yokoyama</div> <div>Mari Hikichi</div> <div>Speaker: Shu Hashimoto</div> <div>Release between Nov. 22 to 30</div> <div>Sponsored Session</div> <div>Coffee Break Seminar 4</div> <div>BEST PRACTICES FOR RESPIRATORY SYNDROMIC TESTING IN COVID-19 ERA AND POST-COVID FUTURE</div> <div>Sponsored Symposium 3</div> <div>Solving Social Problems through Partnerships between Medicine and Industry</div> <div>Sponsored Symposium 5</div> <div>Endobronchial Ultrasound in Asia – Past, Present and Future</div> <div>Sponsored Lecture 16</div> <div>Challenges and Innovations in AI Technology for Respiratory Disease Imaging - From Data Acquisition and Processing to Interpretation</div> <div>Sponsored Lecture 17</div> <div>New Era of Bronchoscopy</div> <div>Sponsored Lecture 20</div> <div>Patient-centred inhaler device selection</div>	<div>Nov. 24 (WED) (12:00 noon JST/UTC+9)</div> <div>Special Program</div> <div><div>1. History, Present, and future of the APSR</div><div>2. Message and lecture by representatives of sister society and president of 26th congress of APSR</div></div> <div>Congress Symposium</div> <div><div>1. Current topics on clinical and basic aspects in COVID-19 in Asia Pacific Region-1</div><div>2. Current topics on clinical and basic aspects in COVID-19 in Asia Pacific Region-2</div><div>3. Our Future [Part 1]: Gender equality and career development in medicine</div><div>4. Our future [Part 2]: Learn and apply sociology of the work environment</div><div>5. Think about refractory asthma; Treatment position of oral corticosteroids and biologics</div><div>6. Progress and future directions for Immunotherapy for lung cancer</div><div>7. Reconsideration of regulating eosinophils</div><div>8. Impact of environmental factor on respiratory system</div><div>9. Palliative care in respiratory diseases</div><div>10. Telemedicine in respiratory care: current status and future</div><div>11. Management of underlying diseases causing severe COVID-19</div><div>12. To end tuberculosis epidemic in global</div><div>13. Single-cell analysis symposium</div><div>14. Current topics and future perspectives in Asian Pacific Region</div></div>	<div>Nov. 25 (THE) (12:00 noon JST/UTC+9)</div> <div>Assembly Symposium</div> <div><div>1. Haemoptysis with radiological clinical correlation</div><div>2. Hot topics in respiratory research</div><div>3. Current Topics in Asthma</div><div>4. Emerging occupational and environmental interstitial lung diseases</div><div>5. Novel approaches on treatment of respiratory infectious disease</div><div>6. Artificial Intelligence in TB Diagnostics</div><div>7. Alternative treatments for obstructive sleep apnea</div><div>8. Critical Illness in Cancer Patients</div><div>9. Mediastinal staging – state of the art in the era of lung ablation</div><div>10. Pediatric Respiratory Potpourri</div><div>11. Physiological assessment of airway by oscillometry</div><div>12. Beyond current treatment of IPF</div><div>13. Precision medicine in COPD</div><div>14. Advances in lung cancer in the Asia Pacific: Overcoming Resistance in NSCLC</div><div>15. Topics of hypoxia induced pulmonary hypertension</div><div>16. Biologics for the management of asthma</div></div>	<div>Nov. 26 (FRI) (12:00 noon JST/UTC+9)</div> <div>Emerging Talent Symposia</div> <div><div>1. Lung development and regeneration</div><div>2. Potential platforms for understanding the mechanism of lung diseases</div><div>3. Insights into pathophysiology of respiratory illnesses The pathophysiological findings from COVID-19</div><div>4. Prognosis of interstitial lung diseases</div><div>5. Up-to-date knowledge of management of NTM pulmonary disease</div><div>6. Bronchopulmonary dysplasia in adult: the early origins of adult lung disease</div><div>7. CPAP adherence across the world</div><div>8. Multidisciplinary approaches for pleural effusions</div><div>9. Frontiers in pulmonary hypertension</div><div>10. Basophils and mast cells in airway diseases</div><div>11. Mitochondria in lung disease</div><div>12. Minding Sex/ Gender as a Biological Variable in Lung Disease</div><div>13. Secondary Infections in COVID-19 patients</div><div>14. Various aspects of asthma</div><div>15. From the Bench of Young Basic Researchers - Development of New Therapeutic Targets for Pulmonary Hypertension</div><div>16. Microenvironment in lung: The Disruption of Homeostasis in Disease states</div><div>17. 2nd line treatment for EGFR-positive NSCLC: beyond PD after osimertinib</div><div>18. Comprehensive analysis with liquid biopsy on lung cancer</div><div>19. Lung epithelial regeneration: the necessary approach for the future treatment of pulmonary fibrosis</div><div>20. Chronic airway diseases revisited 2021</div><div>21. Management of lung cancer in the next decade</div><div>22. Future in oncoimmunology against thoracic cancer</div><div>23. Nation-wide multicenter studies for Chronic Obstructive Pulmonary Disease</div><div>24. Challenges to prevent and control the outbreak of COVID-19 and other respiratory tract infections in different countries</div><div>25. The development of a novel therapeutic strategy for lung cancer; from bench to bedside</div><div>26. How to detect driver mutations of lung cancer in clinical practice -current status and efforts-</div><div>27. Review of BAL in Interstitial Lung Disease diagnosis</div></div>	<div>OUR FUTURE</div> <div></div> <div>Nov. 30 (TUE) (12:00 noon JST/UTC+9)</div> <div>Oral Session</div> <div><div>Clinical Respiratory Medicine 1</div><div>Clinical Respiratory Medicine 2</div><div>Cell and Molecular Biology</div><div>Clinical Allergy and Immunology</div><div>Environmental and Occupational Health and Epidemiology</div><div>Respiratory Infections (non-tuberculous) 1</div><div>Respiratory Infections (non-tuberculous) 2</div><div>Respiratory Infections (non-tuberculous) 3</div><div>Tuberculosis 1</div><div>Tuberculosis 2</div><div>COPD 1</div><div>COPD 2</div><div>Lung Cancer 1</div><div>Lung Cancer 2</div><div>Lung Cancer 3</div><div>Asthma 1</div><div>Asthma 2</div><div>Respiratory Neurobiology and Sleep</div><div>Critical Care Medicine</div><div>Bronchoscopy and Interventional Techniques</div><div>Paediatric Lung Disease</div><div>Respiratory Structure and Function</div><div>Pulmonary Circulation</div><div>Interstitial Lung Disease 1</div><div>Interstitial Lung Disease 2</div></div>	

OUR FUTURE

On-deman broadcasting will be closed on Thursday, December 28, 2021 (12:00 a.m. JST/UTC+9)
